

## WARLEY MEDICAL CENTRE FRIENDS & FAMILY TEST

*How likely are you to recommend our GP practice to friends and family if they needed similar care or treatment?*

May 2018

### LIKELY

There was a delay in seeing the GP however he was polite, approachable and listened when I spoke following him asking his questions. He was able to get to grip with my situation and offered appropriately as required.

### LIKELY

Very friendly staff but sometimes very hard to get appointment. Doctors are very well skilled.

### LIKELY

Very happy with doctors and staff. Only problem is getting appt. Also phone message cuts you off. Option should be given to wait if you want in a queue.

### EXTREMELY LIKELY

I have always been impressed with the doctors and nurses in this practice over the years for both myself and family members.
